

When Buying From Deso, You Are Buying More Than Products, You Are Buying Quality And Service

G100 ALLOY CHAIN

- The Generation Of High Performance Overhead Lifting Equipment
- 25% Higher Work Load Limit
- G100 offer +25% higher WLL over G80 allowing a downsizing of chains Weight Reduction
- The downsizing of the chains results in lower weight for chain-slings
- Higher Design Factor
- The G100 chain offers a design factor of 51 compared to G80 with 4:1
- Color Coated Corrosion Protection
- G100 has a powder coated finish which provides easy identification and corrosion protection.

Chain Dia (mm)	Inside Length(mm)	Inside Width(mm)	Ouside Width(mm)	Workng Load Limit (t)	Min breaking Load (t)	Weight (kg/m)
6	18	7.5	21	1.14	5.70	0.80
